Grading

If your particular curriculum requires that a grade be given for spelling, we would recommend that tests for grading purposes be given at a separate time and that the students be graded on their learning of the spelling of the sounds — not the words as the suggested tests for grading purposes are constructed to do. AVKO gives permission for parents to duplicate the tests for their home school only. Read the sentences to your students. All they have to do is fill in the blanks. Notice that you are not testing on the whole word. You are testing only on the spelling patterns taught. That is why the initial consonants or blends are given to the child. Note: You can use this as a pre-test as well as a post-test to show real gains. How you grade these tests is up to you. You could use the 0-1 wrong = A, 2-4 = B, 5-7 = C, 8-10 = D. We don't expect that you'll have any E's.
